

WATER RIGHTS INFORMATIONAL MEETINGS

ARE YOU INTERESTED IN WATER USE AND WATER RIGHTS POLICY FOR SOUTHEASTERN UTAH?

THE FOLLOWING WORKSHOPS AND PUBLIC MEETINGS ARE BEING HELD BY THE
STATE ENGINEER'S OFFICE TO DISCUSS THE MOST RECENT LEGISLATION AND
POLICY CHANGES IN WATER RIGHTS FOR SOUTHEASTERN UTAH

WATER RIGHT CURRENTS

Learn about water right basic policy, current regional issues,
and the most recent legislative and policy changes.

- Proof Affidavits
- Non-Use Applications
- Livestock Watering Rights on Public Land
- Q&A with Kent Jones, State Engineer

PROPOSED ENDANGERED FISH POLICY

Learn about the cooperative program to recover endangered
fish in the Upper Colorado River while allowing Utah to
proceed with development of its Colorado River Compact
entitlement. Utah has a responsibility to legally protect flows
to accomplish recovery and survival of the fish under the
cooperative program. Discuss mechanisms to accomplish that
objective on the Green River from Flaming Gorge Dam to the
river's confluence with the Colorado River.

COLORADO RIVER POLICY REVIEW

Learn about current Colorado River Basin Water Right Policy.
Learn specifics about Utah's allotment of Colorado River
water and its obligation under the Colorado River Compact.
Discuss existing policy restrictions and potential future policy
direction.

UGS STUDY OF HYDROGEOLOGY OF MOAB-SPANISH VALLEY

Learn about ground-water conditions in Moab-Spanish
Valley's valley-fill aquifer and recommendations for water-
resource management and land-use planning.

PROPOSED IRRIGATION DUTY POLICY

Learn about proposed policy changes affecting the irrigation
duty recognized for parts of Grand and San Juan Counties.

WILLIOW BASIN AND UPPER MILL CREEK APPROPRIATION POLICY

Learn about policy recommendations adopted for
appropriation and regulation of water use in the Willow Basin
and Upper Mill Creek drainages.

FEDERAL RESERVED WATER RIGHT PROPOSED SETTLEMENT AGREEMENT FOR ARCHES NATIONAL PARK

Learn about a proposed water rights settlement agreement
recognizing Federal Reserved Water Rights for Arches
National Park. Discuss settlement concepts and the practical
implications of adopting proposed protection zones outside the
park.
